

In Partnership with Physician Owners

Any billing done for your surgery could be billed by at least four separate entities, possibly four. *What are the entities?*

- 1) **Sequoia Surgical Pavilion** is the surgery center. We bill for the Facility Fee. Any co-pays or deductibles collected upon admission will be applied to our bill only.
- 2) **Surgeon** is the physician who performed the services. The physician's office will bill your insurance and you separately for services rendered by the physician.
- 3) **Anesthesiologist** is the physician who provided the anesthesia. You will be billed separately for services provided by either Dr. Steven S. Jacobs, Inc. or Medical Anesthesia Consultants.
- 4) **Pathologist** – you may or may not receive a bill from the pathologist depending on what type of surgery is being performed (lab work).
